

SUMMARY	
ID	US-005
Epic	Vacation Management
Title	Manager Reviews Vacation Cancellation Request
Priority	High
Status	Todo
USER STORY	
1	As a manager, I want to review and approve/reject vacation cancellation requests from my team members so that I can manage team availability and handle schedule changes.
TRIGGER	
Trigger	Manager receives notification of pending vacation cancellation request from team member.
ACCEPTANCE CRITERIA	
#	Criteria
1	Given I am a manager, when I access the cancellation review screen, then I should see the original vacation request details and cancellation reason.
2	Given I review a cancellation request, when I make a decision, then I should be able to approve or reject the cancellation.
3	Given I approve a cancellation, when I submit my decision, then the employee should be notified and their vacation balance should be restored.
4	Given I reject a cancellation, when I provide a reason, then the rejection reason should be stored and communicated to the employee.
NOTES	
Dependencies	Manager role permissions, vacation cancellation workflow, notification system
Remark	Cancellation approvals should consider business impact and team coverage requirements.
